Nuvo Lighting: A legacy of lighting solutions.
Breadth of line. It’s a simple enough idea, but one not easily achieved. Nuvo Lighting has been able to develop beautifully designed, highly engineered fixtures, in a range of styles and technologies, including many LED options, that are at home anywhere from condos to cottages, homes to hospitality venues, indoors or out. As you review the many families in this book, you’ll soon discover that “breadth of line” – an elusive goal for most lighting companies – is an understatement at Nuvo Lighting.
Complete fixture families mean design continuity.

Whole-house coordination requires a big picture look at the entire residence – and finding the right fixture family to go the distance. Nuvo Lighting has many fixture families in a number of styles that provide this high level of flexibility and versatility – fixtures in one family for many applications.
We believe so. And to our point, these beautiful kitchens.

The lighting in any room can make a statement, but should not overshadow the room’s overall beauty. Tasteful design – in any style – can achieve that.

Nuvo Lighting has the solution – many varied design disciplines that can make a statement in any room, but do it with tasteful restraint.
A. "Stanza", page 89
B. "Thread", undercounter lighting page 558
C. "Zen", page 270
D. "Vessel", page 300
E. "Boxer", page 36
Is there a space these fixtures can’t complement?

With so many beautiful, LED efficient vanity and sconce options, it’s no wonder condo developers, home builders and hospitality planners everywhere rely on Nuvo Lighting for their design and energy savings. Professionals rely on Nuvo Lighting; residents enjoy it.

C. “Loop”, page 324, “Perk” flush mount, (also shown), page 342
D. “Lucas”, page 306
E. “Saber”, page 331
Curb appeal isn’t just about selling homes – and it isn’t just for the daylight hours.

In addition to safety, the right lighting can make a home come alive all over again after the sun sets. With so many styles and families to choose from, Nuvo outdoor fixtures have made lasting impressions – all day long.
A. "Willis", page 500
B. "Verona", page 480

Nuvo covers the basics, in style.

With all the utility fixtures Nuvo Lighting offers, there’s no reason every space can’t have efficient, cleanly-designed LED lighting. From garage to laundry to workshop, closet to craft room to mud room, every space will benefit from the right lighting – the wide variety of functional Nuvo LED track and utility lighting.

Hospitality is not just an industry term, it’s a feeling.

Rather than define the hospitality industry as just that, an industry, we define it another way: warm, inviting, comfortable, stylish, and all the thoughts that come to mind when we think of inviting spaces. But still being a business, Nuvo fixtures also help this industry meet energy requirements and maintenance costs with our focus on LED fixture families. Nuvo Lighting can achieve true hospitality – and savings – in any number of styles and applications.
LASTING IMPRESSIONS.

Simple design is hard to achieve. But when done correctly, the result is both elegant and impressive. The Marion Collection is just that.

DESIGN WITH AN OPEN MIND.

Three pendants, and so many possibilities – the only consideration would be size – it can’t help but work. Antique Gold and Mirror Glass and an open frame design makes the Stanza collection one of those go-to fixture families for almost any venue.

SIMPLE IS BEAUTIFUL.

Simplicity is not easy to achieve in design. It’s boiling down an object to only its most essential – and beautiful – elements. Crate is a glowing example of this thinking. Right for so many applications, large or small, Crate’s understated design is sure to add elegance and interest to any space.

IMPACT MADE SIMPLE
Clean, simple design speaks volumes. And even in all its simplicity, Bounce becomes a presence. Polished Nickel and the clear lamps themselves form a simple, almost playful contemporary statement perfect for so many hospitality applications.

Eclectic Ensembles
CAN A FIXTURE INSPIRE AN ENTIRE VENUE?

In this case, Zen has done just that. This modern retro style is strong enough to set the style, yet not so serious that it overpowers the space. This is when a fixture can be an inspiration.

FUNCTIONAL, BUT WITH PLENTY OF STYLE.

Del fixtures make “getting the job done in style” an understatement. Five different glass finishes, all stunning, and LED efficiency combine to deliver substance and style.

LESS ENERGY. MORE COMPLIMENTS.

Clean design is more than just visual. It’s bringing that same thinking inside – to the energy efficient LED module. And the Pulse family does just that.

LET'S BE OPEN ABOUT DESIGN…
When it’s good, it’s great. And the Wired family is great. Delicately shaped wire with matching glass create a simple, open design that, at the same time, has great presence.

Outdoor lighting is surely a necessity, but this requirement shouldn’t mean settling for boring design. Verona fixtures achieve design goals – but behind the design, high-tech LED modules deliver clean, consistent light where it’s needed most, and do it with extreme efficiency.

Thread Linear LED System

Included Accessories
- Removable diffuser
- Flat mounting clips
- 45° Mounting clips
- Closed end cap

Key Features
- Available in 6", 10", 21" and 30"
- On board IC driver – no external driver required
- 2700K or 3500K
- 312 Lumens per foot at 2700K
- 330 Lumens per foot at 3500K
- CRI 80+
- Diffuser lens included for even light – eliminates hot spots and glare
- Flat mounting clips, 45° mounting clips, removable diffusing lens and closed end cap included with each unit
- Very low heat, no UV or IR radiation
- Direct-wire or portable installations – various connection accessories available
- Up to 65' continuous runs off one power feed
- Exact spacing of LEDs, including fixture to fixture for consistent, even lighting
- 50,000 hours rated life
- ENERGY STAR certified for under-cabinet and cove applications
- 5 year warranty*
- Construction: Extruded polycarbonate body and diffuser lens
- Power: 120V AC
- Light source: LED 2700K and 3500K
- Finish: White
- Dimming to less than 5% with electronic low voltage (ELV) dimmers
- Damp location listed

Connections are quick and easy with keyed connectors
- Assures proper current flow
- Makes connections simple

Technical Overview

Thread internals
- Advanced on-board IC direct drive technology
- No external driver required
- No capacitor = greater reliability and longer life
- Reduced size

Linear lighting continuity
- Custom PCB (printed circuit board) layout and fixture body design maintain LED package spacing as LED fixtures are joined together

Removable diffuser lens (included)
- Softens visual glare
- Reduced reflectivity of LEDs from polished surfaces
- With lens removed lumen output increases by approximately 15%

Advanced color management

It’s what makes Thread different.
- The ANSI range of 2700K is divided into 12 ranks.
- Our LED Packages only use 9 of the 12 ranks within the ANSI standard
- Without the MRM procedure, the CCT may be spread over the range inside the blue diamond.
- After MRM, the range of CCT will shrink to within the green diamond
- The Thread system, uses only 6 ranks and blends those ranks, so that the actual CCT range is much smaller and is similar to a 5-step MacAdam ellipse. Ranking falls within the black dashed diamond
